

For 50 years, the NHSC has worked to:

- **Build healthy communities by supporting qualified health care providers** dedicated to working in areas of the United States and its territories with limited access to primary health care, regular dental and behavioral health care, and preventive screenings.
- **Improve access to these crucial services** by practicing in health professional shortage areas across the country.
- **Help clinicians pay of their health professional student loan debt in exchange for their service in high-need areas** through scholarships and loan repayment programs.
