

Urban Health Experience Summer Camp June - August 2024

The Urban Illinois Health Education Centers are co-sponsoring an Urban Health Experience summer camp for Chicago area undergraduate students.

The UHE will include asynchronous material on urban health care needs and case study application, the opportunity to design and present a capstone project based on public health interventions, and an in-person Narcan and Mental Health First Aid (MHFA) training day on August 2 and 3, 2024. Virtual Narcan and MHFA pre-work is required to participate in the in-person training day.
